1986-1996 Mozambique projects under UNICEF, GOM auspices focused on survival, poverty containment and reduction (basic services - basic infrastructure - livelihoods/market access - safety nets). Purposes of building data base, building poverty reduction/rehabilitation into strategic approaches with a research-catalytic unit to institutionalize worked with. Convincing donors poverty reduction/rehabilitation are - in Mozambique - central to successful macro economic strategy made much less progress. 1996 bit Final retrospective evaluation on project(s) to GOM.
