EAST AFRICA

1962

Revised figures for 1959 and provisional figures for 1960.

Official estimates for the period 1954 and after extrapolated back to 1946.

Discussion of the treatment of the E.A. Common Services in the official G.D.P. calculations, and of territorial balance of payments.

KENYA

1962

Structure and ownership of physical assets, valued at "net book value" in 1958.

First estimate of G.D.P. for 1962. A short Appendix describes the "adjustments made to the present series of gross domestic product estimates to take account of the results of the 1962 population census."

This is a modified version of a paper prepared for the Planning and Development Advisory Council to "serve as a basis for a consideration of the rate of economic expansion that might be attained over the next six years."

A postal census of all firms with 5 or more employees which were classified as manufacturers in the index of employers maintained by the Division.

TANGANYIKA

1963.

Presents economic and functional analyses of the Central and Local government accounts and estimates and the appropriation account of general government (including E.A.C.S.O. and defence but excluding public transport and communication).

UGANDA

1963.

First estimates of G.D.P. for 1962 and forecast for 1963. Contains a short account of an enquiry made of large firms about their plans for capital expenditure over the next five years.

"A plan for development in the public sector and an estimate of private sector investment during the period."

ZANZIBAR

1963.

Estimates based mainly on the "product" approach.
KENYA

1964.

TANGANYIKA

1964.

1. Central Statistical Bureau. "Census of Industrial Production in Tanganyika, 1961", p. 109 (mimeo.). Central Statistical Bureau. "The present census ... covers all industrial establishments in Tanganyika, irrespective of size." In addition to the normal purview of industrial production coverage "was extended to include primary processing of agricultural raw materials, such as sisal, carried out on agricultural estates."

3. Central Statistical Bureau, "The National Accounts of Tanganyika 1960-62", p. 76 (mimeo) Central Statistical Bureau, The Treasury. Describes a new official calculation. The total G.D.P. figures do not differ very much from those given by the previous calculation, but the distribution between sectors is considerably changed. The basis of the calculation in the subsistence sector has also been changed and is now more comparable with the treatment in the Kenya and Uganda calculations. One section deals with estimates at constant prices.

UGANDA

1964.
